

Shade Port Facts for Auto Malls

Solar Shade Solutions introduces unique cantilevered Shade Ports.
What will they do for your dealership?

- ◆ Presents an attractive, upscale, and comfortable atmosphere that is more conducive to making a positive buying decision.
- ◆ Creates a virtual oasis for customers and sales staff from heat, rain, and the sun's harmful UV.
- ◆ Budget allowing, designated Shade Ports for customer parking is perceived as a very thoughtful amenity that will most certainly have a positive psychological impact on their purchasing decision.
- ◆ They have a very high visual impact from the street that makes the statement: *"We're considerate of our customer's comfort and convenience."*
- ◆ Cantilevered design eliminates front post obstructions, as well as vehicle and structure damage.
- ◆ Available with a number of special-effects lighting options, such as solar-powered LEDs, etc.
- ◆ Reduces a vehicle's interior temperature by as much as 45°, eliminating stifling, superheated air and scorching upholstery and steering wheels.
- ◆ Inventories sheltered from rain, dust, and bird droppings which detracts from their appearance, vehicles stay cleaner longer.
- ◆ Saves money as vehicles will not require washing nearly as often.
- ◆ Protects from hail damage and will likely lower insurance premium on inventory.
- ◆ Brings an upgraded, vibrant look to your facility.
- ◆ Can be relocated to another area if necessary.
- ◆ Engineered for 130-mph winds with **one-minute** removal of shade fabric making them virtually hurricane-proof.
- ◆ Warranties: 10-yr on shade fabric, 15-yr on structure.
